Skills

Professional Summary

Freelance Angular Lead Developer | Expert in Modern Angular Ecosystem (@ngrx, Signals, TailwindCSS, Nx Monorepo).

While I am deeply technical, I speak the language of business. I enjoy working in cross-functional teams, collaborating closely with Product Owners, Backend Developers and UI/UX designers to align architectural decisions with real user needs. I value transparency, pragmatism, and environments where quality and scalability are seen as investments, not expenses.

Projects History

Freelance Angular Developer, El Llevat, associació de consum, Barcelona

AUG 2024 – PRESENT

- Developed responsive web applications using Angular, ensuring compatibility across multiple devices and browsers.
- Analyzed project requirements and led architectural decisions to align with stakeholder expectations.
- Maintained high code quality through extensive testing and adherence to best practices

Freelance Angular Lead Developer, Crush Software Solutions LLC, Remote

JUL 2025 – NOV 2025

- Led frontend engineering for CRUSH 2.0, focusing on architecture and best practices with Angular 20, @ngrx/signals, and TailwindCSS 4.
- Collaborated closely with the UI/UX team to ensure accessibility and responsive design in the development of an enterprise vehicle purchasing system.
- Spearheaded the development effort to deliver the MVP on time for CRUSH 2.0, successfully debuting at the 82nd Annual ARA Convention & Expo.

Freelance Angular Developer, Kea IT / Fundació Eurecat, Barcelona

OCT 2023 – SEPT 2024

- Developed a content management system for the Quinera Qiniverse Center project, enhancing multisensory therapeutic environments.
- Led architectural decisions, applying best practices to ensure high-quality code and project integrity.
- Collaborated with stakeholders to gather and align project requirements with organizational goals.

Freelance Developer, BMAT Licensing S.L., Remotely/Barcelona

MAY 2021 – SEPT 2022

- Developed the VOD Panel application for royalty distribution, streamlining content management processes.
- Architected scalable systems using NX, enhancing code quality and accelerating development timelines.
- Analyzed and documented software requirements to ensure alignment with project goals and stakeholder expectations.

Freelance Developer, 24sq Ltd., Remotely/London

MAY 2020 – NOV 2021

- Developed a Progressive Web App (PWA) for patient registration and medical supply management, enhancing user experience and operational efficiency.
- Analyzed project requirements and documented software specifications, establishing a robust system architecture to support scalability.
- Collaborated with stakeholders to align project objectives, ensuring successful delivery and adherence to client expectations.

Freelance Developer, Unimedia Technology SLU, Remotely/Castelldefels

JUN 2018 – MAY 2020

- Developed Cube CMS, a copyright music application, and Naistro, a web player tailored for the Middle East, enhancing user engagement.
- Utilized Angular 9, Bootstrap, @ngrx, and AWS Amplify to create responsive and efficient web applications.
- Collaborated with cross-functional teams to define project scope and deliverables, ensuring alignment with client expectations.

Languages

Catalan

Spanish; Castilian

English

Freelance Developer, Liquid Studio, Remotely/Barcelona

JAN 2019 – MAY 2019

- Developed and maintained a Car Renting CMS using Angular 7, Nx, and @ngrx to enhance user experience.
- Optimized application performance through comprehensive code reviews and best practices
- Collaborated closely with stakeholders to align development efforts with project goals and requirements.

Freelance Developer, OPT Retina S.L., Remotely/Sant Cugat

APR 2019 – OCT 2019

- Developed a content management system for medical professionals, enhancing user experience and workflow efficiency.
- Analyzed project requirements to create detailed software specifications, ensuring alignment with stakeholder expectations.
- Architected scalable web applications using Angular 8, @ngrx, and Bootstrap, focusing on performance and maintainability.

Freelance Developer, Itaca Auditores S.L., Remotely/Barcelona

DEC 2017 – JUN 2018

- Spearheaded risk and resource management initiatives utilizing the Ulises GRC App to enhance project efficiency.
- Analyzed and documented both technical and non-functional requirements to improve project clarity and stakeholder alignment.
- Developed user-friendly interfaces using Angular 5, incorporating flex-layout and material design principles.
- Collaborated with cross-functional teams to ensure seamless communication and alignment on project objectives.

Freelance Developer, BcnWeb, Remotely/Barcelona

MAY 2017 – OCT 2017

- Developed a web application for product comparison, significantly enhancing user engagement through intuitive design.
- Analyzed technical and non-functional requirements, ensuring comprehensive clarity and alignment with project goals.
- Implemented Angular 4, @ngrx, and ngx-charts to optimize data visualization, improving user experience.

Freelance Developer, Adabits Coop / CONFAVC, Barcelona

DEC 2016 – APR 2017

- Architected scalable web applications using Angular and Firebase to enhance user experience in community mapping projects, [Veinapp](#).
- Analyzed project requirements and led architectural decisions to ensure alignment with stakeholder expectations.
- Maintained high code quality through rigorous testing and best practices in a collaborative development environment.

Senior Frontend Developer, Odigeo eDreams, Barcelona

MAR 2015 – SEPT 2016

- Developed and optimized web applications using JavaScript and Backbone, enhancing user experience and performance.
- Implemented behavior-driven development (BDD) with Selenium and Cucumber to improve code quality and testing efficiency.
- Collaborated with cross-functional teams to align on project objectives and deliverables, ensuring successful project execution.

Senior Web Developer, Grapa West Samoa S.L., Barcelona

NOV 2012 – OCT 2014

- Developed web applications utilizing CodeIgniter, Laravel, and MySQL, ensuring high performance and scalability.
- Implemented responsive design using JavaScript and Bootstrap to enhance user experience across devices.
- Mentored junior developers through code reviews, fostering skill development and adherence to best practices.

Freelance Developer, Several clients, Tortosa

MAR 2007 — NOV 2012

- Developed dynamic web applications using Flash/Actionscript, PHP, CodeIgniter, MySQL, and JavaScript, enhancing user experience for various clients.
- Designed and implemented front-end features utilizing HTML5, CSS3, and jQuery, ensuring responsive and engaging interfaces.
- Created custom solutions for WordPress and Joomla! sites.

Web Designer, Disi S.L., Tortosa

MAR 2005 — MAR 2007

- Designed and developed user-friendly web interfaces utilizing HTML, CSS, and JavaScript.
- Collaborated with cross-functional teams and maintained and optimized existing web applications to enhance performance and user experience.
